0	1	Hey sir I have a question on software I am doing that timeline for john but I am trying name the identity the guys name for a event and the next event ha	4/4/11 14:40	Incoming
0	1	s the same guys name as the first but it will not let me to name the second identity the same as the first identity is there a way around that or some	4/4/11 14:40	Incoming
0	1	thing that I have to do to allow me to do it	4/4/11 14:40	Incoming
0	1	"The identity field must be unique, but you can use label instead"	4/4/11 14:41	Outgoing
0	1	Ok thank u sir	4/4/11 14:42	Incoming
0	1	Go to item properties and select label	4/4/11 14:42	Outgoing
0	1	Ok kewl	4/4/11 14:42	Outgoing
0	1	Is there a way to copy the entire event and paste it for the next?	4/4/11 14:43	Incoming
0	1	"Should be able to copy an paste anything on the chart, yes"	4/4/11 14:44	Outgoing
0	1	Hmmm it will not allow me to I right click on the event hit copy and right click else where on the timeline and hit paste it just rehighlights the event	4/4/11 14:48	Incoming
0	1	I was trying to duplicate	4/4/11 14:48	Incoming
0	1	I think it duplicates in that exact physical location	4/4/11 14:49	Outgoing
0	1	See if it is stacked on other one	4/4/11 14:49	Outgoing
0	1	I tried to click on the top one and change the date and time but if it is stacking it moves the entire stack to that location then	4/4/11 14:50	Incoming
0	1	Hmm guess u may have to recreate it then	4/4/11 14:50	Outgoing
0	1	Wait I remember how	4/4/11 14:51	Outgoing
0	1	Ok not a problem just checking	4/4/11 14:51	Incoming
0	1	"U copy it to a new chart, change the identity, then copy it back into your chart"	4/4/11 14:52	Outgoing
0	1	Ok I'll give that a shot thank u	4/4/11 14:52	Incoming
0	1	Yup	4/4/11 14:53	Outgoing
0	1	Yep that worked if the time increments are to close and it stacks the events on top of each other how do u spread them out?	4/4/11 14:56	Incoming
0	1	Got it you have to drag with the arrow not the hand	4/4/11 15:00	Incoming
0	1	Yes or unpinned them	4/4/11 15:10	Outgoing
0	1	Question when there are two people arguing would you show two different event bubbles and link them together with the description of the event	4/4/11 15:12	Incoming
0	1	An argument is one event with two or more involved (linked) subjects	4/4/11 15:17	Outgoing
1	1	"Last dance with mary jane tonight, u in? Gotta pass a piss test in a couple months so this be it for while"	4/4/11 15:21	Incoming
0	1	People should not be events	4/4/11 15:28	Outgoing
0	1	He should be entered as a regular entity	4/4/11 15:28	Outgoing
0	1	So when it shows me the male figure or female figure I shouldnt use that? What should I use?	4/4/11 15:30	Incoming
0	1	"Yes, but if u look at tabs the male and female can be events or other entity types"	4/4/11 15:36	Outgoing
0	1	There are tabs above the icons	4/4/11 15:37	Outgoing
0	1	Ok so can I make the main person the event and then just add the associate under it almost like it is now but change the event below to a associate?	4/4/11 15:38	Incoming
0	1	No I would only make incidents events	4/4/11 15:39	Outgoing

0 1 Make people standard entities and link them to events 4/4/11 15:39
Outgoing
0 1 Regular entities don't appear in squares 4/4/11 15:41 Outgoing
0 1 U only see the icon 4/4/11 15:41 Outgoing
0 1 Because people will be linked to multiple events 4/4/11 15:41
Outgoing
0 1 Ok so I shouldn't make the events with people how should I represent the
event title and photo? Do u have a example that I can look off of to get an idea?
4/4/11 15:42 Incoming
0 1 Ok 4/4/11 15:42 Incoming
0 1 Or u can make him a timeline if he is linked to all the events 4/4/11
15:42 Outgoing
0 1 Ok so I should just make one associate and link then to all the different
events 4/4/11 15:42 Incoming
0 1 Hang on 4/4/11 15:42 Outgoing
0 1 Not quite all of them 4/4/11 15:43 Incoming

0 1 Question for ya sir I am not 100% sure on how to make it look nice I tried
the premade template for the layouts it just makes it look worse or do I just 4/5/11
15:20 Incoming
0 1 have to mess with it by adjusting one by one? 4/5/11 15:20 Incoming
0 1 "Yup, sucks" 4/5/11 15:20 Outgoing

0 1 Dam that is a lot of adjusting how do u not make it look like a mess of
lines just spread it out? 4/5/11 15:21 Incoming

0 1 But wait. What version do u have? 4/5/11 15:37 Outgoing

0 1 "Lol very carefully, or u take it off the timeline and space everything
yourself" 4/5/11 15:38 Outgoing

0 1 Version 8.5.1 and I think I will spend sometime spreading it lol last
thing I want is a day and a half gone 4/5/11 15:39 Incoming

0 1 Did you put subjects above and below the timeline if not do u think that
it will not not look good if I did? 4/5/11 16:00 Incoming

0 1 That is probably fine 4/5/11 16:04 Outgoing

0 1 Ok timelines are kind of a pain to do with all the different connections
and being able to move it all around 4/5/11 16:05 Incoming

0 1 Edit the objects and set them all to free 4/5/11 16:05 Outgoing

0 1 Then u can move them yourself 4/5/11 16:06 Outgoing

0 1 Ok I'll give it a shot 4/5/11 16:06 Incoming

0 2 Hey u on the road whats ur eta 4/5/11 17:31 Incoming

0 1 How did u get passed the data loss when you try to print it out on the
plotter 4/6/11 10:12 Incoming

0 1 Export as A3 or some other smaller paper type as a PDF. Print the PDF
using adobe. 4/6/11 10:12 Outgoing

0 1 Will take away from the quality of the print? 4/6/11 10:15 Incoming

0 1 Will that* 4/6/11 10:15 Incoming

0 1 Not much. It makes high quality PDFs 4/6/11 10:16 Outgoing

0 1 Ok I'll give it a shot thank u 4/6/11 10:16 Incoming

0 1 How do I shrink down the chart with out bringing down the font size? Right
now it is 82 x 30 it's big 4/6/11 12:32 Incoming

0 1 You just shrink it then blow it up as PDF to print it 4/6/11 12:33
Outgoing

0 1 Resolution is good 4/6/11 12:33 Outgoing

0 1 So do I have to go through all the font sizes and shrink them down to fit
on a smaller page size or can I make it do that automatically? 4/6/11 12:34 Incoming

0 1 Have you tried to call them for trouble support? 4/6/11 12:54
Incoming

0 1 Yes 4/6/11 13:26 Outgoing

0 1 They couldn't do it either lol 4/6/11 13:26 Outgoing

0 1 No it shrinks it for you in page setup 4/6/11 13:27 Outgoing

0 1 U tell it to fit to whatever paper size and it will 4/6/11 13:27
Outgoing

0 1 Then export as PDF 4/6/11 13:28 Outgoing

0 1 Ok I think I found the problem for the export for me I have it set to
custom 1 82x30 but everytime it exports as a PDF it defaults the custom 1 back to 8
4/6/11 13:29 Incoming

0 1 .5x11 so I am going to see if I can't change the default printer size to
the 82x30 4/6/11 13:29 Incoming

0 1 It shows them PDF writer as a printer so does it select the options from
there instead of the plotter? If so it would not recognize my custom setting for t
4/6/11 13:31 Incoming

0 1 he plotter 4/6/11 13:31 Incoming

0 1 Yep I think that is it 4/6/11 13:32 Incoming

0 1 It shows me the paper sizes that it will export but I can not change any
of them it just gives me a error when I try 4/6/11 13:33 Incoming

0 1 It will not export a large PDF. Legal 11x17 or standard only 4/6/11
13:36 Outgoing

0 1 U just blow it up in adobe 4/6/11 13:36 Outgoing

0 1 Resolution is actually fine 4/6/11 13:36 Outgoing

0 1 I understand that but I am trying to make it where there isn't a foot of

0 1 redesignated size paper but it will not allow me to do it with a custom
size. 4/6/11 13:40 Incoming
0 1 No custom sizes no 4/6/11 13:41 Outgoing
0 1 Why? 4/6/11 13:42 Incoming
0 1 Cuz it sucks 4/6/11 13:42 Outgoing
0 1 But u can tell it to fit in that size in page setup 4/6/11 13:42
Outgoing
0 1 Ok is there a way to cut out the big blank area? 4/6/11 13:42
Incoming
0 1 I got that 4/6/11 13:43 Incoming
0 1 Move the chart up towards the top edge 4/6/11 13:43 Outgoing
0 1 Then all the runoff will be on the bottom 4/6/11 13:43 Outgoing
0 1 Ok I'll give that a shot. Do u just deselect the center on page option and
select everything and move it? 4/6/11 13:44 Incoming

 0 43 They were able to save most of it. 1/4/12 19:49 Outgoing
 0 43 Sounds like you need another consult. Why remove any of it with no
 cancer? 1/4/12 19:52 Incoming
 0 43 There were so many lesions and pockets that was contributing to his copd
 that it was difficult to get to the sections that needed to be biopsied. The doctor said
 he removed only what he had to. They were only going for the upper 1/3 of the right lung.
